Proposed CIA Expansion at Langley  
Fairfax County

[Redacted]  
New Building Project Office  
Office of Logistics  
Central Intelligence Agency  
Washington, D.C. 20505

Dear [Redacted]

Reference is made to your letter of July 5 in which you requested that the Department increase the scope of work for offsite roadway improvements to include the George Washington Parkway entrance to CIA.

We have evaluated this request and we feel that the traffic analysis and conceptual designs for the Parkway should cover the area between Route 123 and Interstate 495. This will identify the needs for the Parkway between these termini, and not just at CIA's entrance. With the expanded study, the CIA will be in a better position to respond to the local citizens' concerns about offsite roadway improvements.

Mr. S. R. Conley discussed this matter with you this morning, and you advised him it would be satisfactory to expand the scope of work in the consultant contract as noted above.

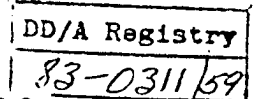

I would suggest that the planning advisory group that is being established for project guidance begin work as soon as all representatives are appointed. Mr. D. E. Keith will be the Department's representative on the committee.

Sincerely,

H. M. Shaver, Jr., State  
Location and Design Engineer

Copy - Mr. D. E. Keith
